

PRESS RELEASE

16 January 2017

HANDS FOR SONGWA

The Songwa Estates partners, La Marzocco, Mahlkönig and Probat, leading coffee equipment manufacturers based in Europe, announce the Hands for Songwa project.

Why Hands for Songwa? To accomplish more. Like coffee, the dedicated and passionate people who work the farm are a precious resource. Beginning in January 2017, a percentage of the sale of products manufactured by the partners will be donated towards carefully selected projects in an aim to improve and support the farm and its immediate community. Funds that will be raised during the course of 2017 have been allocated to the construction of four wells, including platforms and pumps.

Are you interested in travelling to origin. Learn more about the coffee seminars that are arranged each year on the farm: www.songwa-estates.com.

ABOUT SONGWA ESTATES

La Marzocco, Mahlkönig and Probat joined forces in 2007 and established Songwa Estates, a non-profit endeavour aimed at educating staff, clients and those who work in the coffee sector in a meaningful way as well as providing tangible support to the community whose livelihoods depend on the growth and harvest of coffee.
